Amendments to the Specification

Please replace the paragraph beginning at page 6, lines 13-20 (as previously amended in the Amendment filed March 13, 2007), with the following amended paragraph:

The peptides listed in Table 1 are reported to be antagonists of the FP receptor that disrupt the interaction between the FP receptor and the associated $G_{\alpha q}$ protein (WO 99/32640 and WO 00/17348). The amino acids are indicated according to the standard IUPAC single letter convention, and X is D-cyclohexyl alanine. Lower case letters indicate D-amino ~~L-amino~~ acids and capital letters indicate ~~D-amino~~ L-amino acids. All of the disclosure in WO 99/32640 and WO 00/17348 relating to specific peptides as FP receptor antagonists, is hereby incorporated herein by reference.

Please replace Table 1 beginning on page 6, line 21(as previously amended in the Amendment filed March 13, 2007), with the following amended Table 1.
